Notes to the Consolidated Financial Statements

For the Three Months Ended March 31, 2009

(Expressed in Canadian dollars)

1. Nature of Operations

Genco Resources Ltd. ("Company") was incorporated under the laws of the Province of British Columbia on February 28, 1980 as Senlac Oil & Gas Ltd. The Company changed its name to Rule Resources Ltd. on June 13, 1980, to Globe Resources Inc. on March 9, 1990, and to Genco Resources Ltd. on March 30, 1998.

On August 1, 2003 the Company acquired all of the issued and outstanding shares of La Guitarra Compania Minera S.A. de C.V. ("La Guitarra"). The purchase price for the acquisition was US\$5,000,000 with consideration being a combination of the issuance of shares and debt. Under the purchase agreement and as part of the consideration, Genco issued 1,380,315 shares valued at C\$1.02 per share to the vendor to satisfy US\$1,000,000 of the purchase price. Genco agreed to pay the balance of US\$4,000,000 by payments of US\$500,000, payable in cash or shares at the Company's option, on each of the first through eighth anniversaries of the closing date. On September 22, 2004 the Company issued 790,427 shares valued at \$0.82 for the first instalment payment to the vendor. On September 1, 2005, September 1, 2006, and August 16, 2007, the Company made the second, third, and fourth instalment payments of US\$500,000 each in cash. On October 15, 2008 the Company issued 472,781 shares valued at \$1.12 for the fifth instalment payment to the vendor. La Guitarra Compania Minera S.A. de C.V. is a wholly owned subsidiary incorporated under the laws of Mexico.

The Company is engaged in silver and gold mining and related activities including exploration, extraction, processing and reclamation. The Company has mining operations in Mexico and owns exploration projects in the United States and Canada.

These financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. If the going concern assumption were not appropriate for these financial statements then adjustments would be necessary in the carrying value of assets and liabilities, the reported revenue and expenses and the balance sheet classifications used.

During the periods ended March 31, 2009 and December 31, 2008, the Company experienced operating losses and negative operating cash flows which were primarily funded by the issuance of share capital, a working capital deficit and the limited amount of cash available as of March 31, 2009. In addition, mineral production at the Company's mine has been suspended indefinitely and as a result the Company has no cash flows resulting from mineral sales.

The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing, resume mineral production and to commence profitable operations in the future. Although the Company has identified reserves and resources in Mexico, there is no assurance the Company will be able to profitably develop and mine these reserves with the current scale of operations. Future profitability may be dependent on completing a feasibility study and expanding mining operations. The Company will have to raise additional funds for future corporate and administrative expenses and to undertake further development of its mineral properties. While the Company has been successful in the past at raising funds, there can be no assurance that it will be able to do so in the future.

Notes to the Consolidated Financial Statements

For the Three Months Ended March 31, 2009

(Expressed in Canadian dollars)

2. Significant Accounting Policies

The unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in Canada and follow the same accounting policies and methods consistent with those used in preparation of the most recent annual audited consolidated financial statements except as noted below. The interim consolidated financial statements do not include all information and note disclosures required by Canadian GAAP for annual financial statements, and therefore should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended December 31, 2008.

3. Financial Instruments

The Company's financial instruments consist of cash, marketable securities, accounts and taxes receivable, deposits, accounts payable, accrued liabilities, and long term debt. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency, liquidity, credit or price risks arising from these financial instruments. The fair values of the financial instruments other than long term debt approximate their carrying values, unless otherwise noted.

a) Currency Risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Mexico and its revenues are generated in US Dollars and its cost of sales are incurred in Mexican Pesos. A significant change in the currency exchange rates between the Canadian Dollar relative to the US Dollar and the Mexican Peso could have an effect on the Company's results from operations, financial position or cash flows. The Company has not hedged its exposure to currency fluctuations.

Financial instruments that subject the Company to a concentration of currency risk are accounts and taxes receivable, accounts payable, accrued liabilities and long term debt.

b) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and accounts receivable. The Company deposits cash with financial institutions it believes to be creditworthy. Cash balances at these financial institutions may exceed the federally guaranteed amount.

The Company's accounts receivable are primarily derived from input tax credits receivable and trade receivables for mineral concentrate sales. The Company will maintain an allowance for doubtful accounts receivable in those cases for which the expected collectability of accounts receivable is in question.

c) Liquidity Risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The Company manages liquidity by managing adequate cash and cash equivalent balances and by raising equity or debt financing. The Company has no assurance that such financing will be available on favourable terms. The Company believes it is subject to liquidity risk through its working capital deficit. In general, the Company attempts to avoid exposure to liquidity risk by obtaining corporate financing through the issuance of common shares.

4. Management of Capital

The Company's objectives of capital management are intended to safeguard the Company's normal operating requirements on an ongoing basis and the continued development and exploration of its mineral properties. The capital of the Company consists of the items included in the consolidated shareholders' equity and long term debt.

In order to maintain or adjust its capital structure the Company may issue new shares or debt. The Company is not subject to any externally imposed capital requirements.

5. Marketable Securities and Note Receivable

	March 31 2009 \$	December 31 2008 \$
Andover Ventures Inc. ("Andover")	—	320,000
Chief Consolidated Mining Company ("Chief")	—	2,373,657
	<u>—</u>	<u>2,693,657</u>

On March 24, 2009 a settlement was reached with Andover and a former director. Under the terms of the settlement, Andover agreed to terminate all previous agreements and purchase the Chief shares in exchange for \$2,857,500 in cash and Andover shares received prior to the settlement and a \$5,000,000 note receivable, payable within 18 months. The note is interest bearing at a rate of US prime plus 2%, subject to a minimum rate of 4% per year, with interest payable quarterly and secured against the Chief shares.

The total gain on the sale of the Chief shares was \$5,431,820 and will be recognized on the same basis as the note receivable is expected to be collected. The Company has recognized a gain of \$1,975,364 and has deferred \$3,456,456.

Under the terms of the settlement agreement with a former director the Company agreed to transfer 2,000,000 Andover common shares owned by the Company to the former director. The fair value at the date of transfer was \$360,000.

During the period ended March 31, 2009 the Company recorded amortization of \$166,169 (2008 - \$1,829,405).

9. Long Term Debt

Long term debt consists of the following instruments:

a) La Guitarra acquisition promissory note

Pursuant to the acquisition of La Guitarra, the Company agreed to pay US\$4,000,000 to the vendor to satisfy the balance of the purchase price. The debt bears no interest, is unsecured, and is repayable by instalments of US\$500,000 on each of the first through eighth anniversaries of the closing date. The outstanding instalment due in August 2009 is US\$500,000 and is recorded as a current liability. Principal payments due over the next five years are US\$1,500,000.

The debt has been discounted for financial reporting purposes to its fair value. The rate used to discount the debt to its fair value was 5% which was based on the cost of borrowing of similar companies for the same purpose.

b) Equipment loan 1

This equipment loan bears interest at a rate of 7.5% per annum with equal monthly payments of US\$8,523 principal and interest and matures on August 2, 2009. Principal payments due over the next five years are US\$55,343.

c) Equipment loan 2

This equipment loan bears interest at a rate of 7.5% per annum with equal monthly payments of US\$6,956 principal and interest and matures on August 2, 2009. Principal payments due over the next five years are US\$45,165.

The Company's estimates of the costs of reclaiming its properties are based on current legal and regulatory requirements. At March 31, 2009, the Company's undiscounted future asset retirement obligation estimate was \$1,559,815. The provision is the discounted value of the estimated future reclamation and property closure costs based on the Company's individual property closure plans. The Company anticipates settling these obligations within the next 18 years. The present value of the provision has been calculated using a credit adjusted risk-free discount rate of 8%.

a) Options

The Company has established a share purchase option plan whereby the Company's directors may from time to time grant options to employees and non-employees. The maximum term of any option may be ten years, but generally options are granted for five years or less. Stock based compensation expense is determined using an option pricing model assuming no dividends are to be paid, a weighted average volatility of the Company's share price ranging from 49% to 75%, an annual risk free interest rate ranging from 3.86% to 4.25% and vesting over various periods from immediately to 5 years. As of March 31, 2009 1,274,724 (December 31, 2008 – 2,183,949) stock options were exercisable.

14. Related Party Transactions

In addition to related party transactions disclosed elsewhere in these financial statements, during the year period ended March 31, 2009, the Company paid or accrued \$76,333 in consulting fees, management fees and bonuses to directors and officers (December 31, 2008 - \$1,296,568). Also, during the period \$23,495 was paid or accrued to a law firm in which the lawyer providing legal services was related to a director.

Included in accounts payable at the period end is \$1,964,557 owing to directors and officers of the Company (December 31, 2008: \$1,517,261). Of this amount, \$431,112 is interest bearing at an interest rate of 9% per year and payable on demand.

The above transactions were in the normal course of operations, occurring on terms and conditions that are similar to those of transactions with unrelated parties and, therefore, are measured at the exchange amount.

15. Economic Dependence

All sales of concentrate ore are to Compania Minera Pena de Bernal, S.A. de C.V. As at March 31, 2009 and December 31, 2008 there were no accounts receivable owing from Compania Minera Pena de Bernal.

16. Segmented Information

The Company has one reportable operating segment, being the acquisition and exploration and future development of mineral properties. All revenues and cost of sales relate to the sale of concentrate ore in Mexico.

The Company's assets by geographic location are as follows:

	March 31 2009 \$	December 31 2008 \$
Canada	5,079,490	2,741,246
Mexico	43,923,681	44,279,809
	<u>49,003,171</u>	<u>47,021,055</u>

17. Contingencies

a) Tax Receivable

The Company has recorded a Value Added Tax receivable in Mexico in the amount of \$2,707,205. Subsequent to December 31, 2008 the company received an assessment from the Service of Tax Administration advising that part of the refund was rejected. Management has appealed the decision and expects that the amount will be fully recoverable.

b) Labour Dispute

A labour related lawsuit has been filed against the Company's Mexican subsidiary which is related to the current labour dispute at the mine. The lawsuit seeks approximate damages of \$50,000. Although, the Company believes the lawsuit is without merit it is possible a judgement may be rendered against the Company.

19. Recent Accounting Pronouncements

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.
